

Krypt Adaptable Supply Chain Powered by SAP

The Power of Connecting Supply Chain Planning, Logistics, and Trade

Safeguard your company against disruptions and prepare your supply chain for the future with Krypt Adaptable Supply Chain powered by SAP Supply Chain and Global Trade solutions.

Krypt Adaptable Supply Chain is a concept that enables companies to break down barriers and look at supply chain and global trade across the enterprise; this holistic approach connects SAP and non-SAP solutions together to allow companies to have a complete view of the end to end business process.

SOLUTIONS

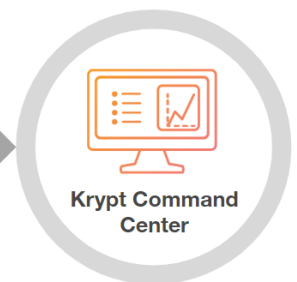

SAP Transportation Management

SAP Global Trade Services

SAP Integrated Business Planning

SAP Business Network for Logistics

SAP Extended Warehouse Management

Benefits of Krypt Adaptable Supply Chain

Companies will realize numerous benefits including the better predictability of goods movements, increased forecasting accuracy, and a reduction in spending. Overall companies can reduce inventory carrying cost and better manage transportation spend. The results of an integrated business process also allows companies to better collaborate and improve efficiencies.
